Dear <<informal_salutation>>,

Now, more than ever, it's important to remember to take time to celebrate the people who are making a difference on the Hill and in the world. I can think of no one more worthy of celebrating than Head Soccer Coach and Director of International Recruitment, Amir Hadzic. Amir will be celebrating 25 years at Mount Mercy this fall—that's 25 years of recruiting, mentoring, coaching and building a legacy. We are eager to honor the tremendous impact he has made on the entire Mount Mercy community over the past 25 years by *naming the Soccer Field in his honor*.

Amir's legacy at Mount Mercy is one of successes, both on and off the field. His 200+ career wins as a head coach show his passion for, and mastery of, the sport of soccer—but these wins pale in comparison to his passion for, and investment in, his players. **Amir epitomizes the spirit of Mount Mercy.** He believes in his players and motivates them to be the best they can be—both as soccer players and students, and will routinely go above and beyond the responsibilities of a coach to ensure his players have every opportunity to succeed and thrive at Mount Mercy. Amir's selfless investment goes far beyond the field—and it is the reason so many of his players consider him **a mentor, an inspiration, and a friend.**

To celebrate Amir's legacy at Mount Mercy and the tremendous impact he has had on our students, we plan to create an endowment to support the facilities where Amir spends much of his time—the Robert W. Plaster Athletic Complex and the Rinderknecht Athletic Center. Our goal is to raise \$250,000 for this endowment, in honor of his 25 years, to help maintain the athletic facilities. This fall, we will unveil the naming of Hadzic Field—details on the celebration will be shared in the near future.

Thank you, in advance, for supporting this effort to honor a truly remarkable man. Your investment will allow generations to come to enjoy the **Hadzic Field and MMU Athletic Facilities.**
